

EU Directive

How To Choose A Filter/Protector

1. Find out what size screen filter you need

To Measure Your Monitor

★ Use the diagonal measurement of your screen to determine the correct size of filter

2. Decide which screen filter is best suited to your needs

Mesh

- ★ Most economical of all screens
- ★ Won't mark with finger prints

Glass

- ★ Enhances contrast and reduces glare

Light Tint

- ★ Lighter tint gives brighter images
- ★ Ideal for darkly lit environments
- ★ Ideal for colour monitors

Flat

- ★ Suitable for most monitors, provides a premium/standard level of protection against glare and reflection

Anti-Glare

- ★ Reduces reflection from windows and office lighting

Anti-Radiation/Anti-Static Protection

- ★ Complete with grounding wires to drain away static electricity
- ★ Specially formulated coating to reduce VLF/ELF E-field radiation by more than 99.9%

This directive affects all workstations and states that 'the screen shall be free of reflective glare and reflections' and 'characters on the screen shall be well defined and clearly formed'.

Our range offers variations of glare and reflection reduction and contrast enhancement as well as a variety of features and sizes to meet every individual need.

a) Fellowes TFT/LCD Screen Protectors

- Protect your investment – safeguard against abrasions, dents and permanent damage caused by applying excessive pressure by pointing and touching the screen
- Modern, light and frameless design, easily fits and complements any TFT/LCD monitor
- Optimal screen tint enhances colour contrast and sharpens text
- Multiple layer optical coating minimises glare to help reduce eyestrain and fatigue

	Mnf Ref	Screen Size	List Price	Now Only
FE1077	96890	15"	£40.80 [E]	£34.80
FE1074	96891	17"	£45.90 [E]	£39.95

b

b) 3M™ Privacy Anti-Glare Computer Filters

- Helps keep sensitive on-screen data private, even in high-traffic areas
- Screen data is visible only to persons directly in front of the monitor; 3M™ privacy technology blocks out data from a side view with no blurring or image distortion
- Reduces screen glare up to 95%
- Helps prevent valuable LCD monitors from scratches and fingerprints
- Midnight black frame coordinates with black monitors
- Significantly reduces glare to help prevent eyestrain and headaches related to computer monitor use
- Anti-radiation blocks up to 99.9% ELF/VLF E-field radiation and reduces static and dust build-up when properly grounded
- Provides maximum user flexibility - fits both CRT and LCD desktop monitors
- New LCD hanger arms included
- Enhanced contrast and more accurate color representation
